Any thoughts/feedback for my sessions throughout the quarter?

7 responses

THANK YOU FOR YOUR SESSIONS THEY SERIOUSLY HELPED ME SO MUCH!! And I love the little raccoon images you showed us. I had a lot of fun and your sessions are very informative so thank you very much and I hope you get the appreciation you deserve!

I only came to this session but the itempool format was helpful, as were your explanations. It gave the ability to ask questions and try stuff in more detail than what clicker questions allowed.

The questions were well thought out and helped with each quizzes. I suggest to continue making these questions and explaining them well.

I really enjoyed your explanations of worked through solutions. I thought they were very clear and you added additional info maybe if the problem were to be slightly altered. (Like if it was a capacitor instead of a resistor). I also enjoyed the multiple choice poll. Thank you so much!

Very helpful. Problems gone over SI Session reflected the quizzes and homework problems. Thanks!

very thoughtful problems that he created. Was great at explaining concepts and walking through example problems. And was always welcoming no matter your answer. Great SI sessions :)

it was cool
